***Community Based services for CHILDREN
AND FAMILIES throughout Butler,
Clinton & Warren Counties***

Early Childhood Home Based Services

Specializing in children age 0-8 to assist with building attachment, connection and to support a child's emotional/social well-being. Weekly sessions focus on early childhood development and emphasize parent-child interactions.

Intensive Home Based Services

Short term (4-5 month) therapy focusing on the family system to stabilize the family unit and improve overall functioning. Three times per week sessions focus on mindfulness, distress tolerance, interpersonal effectiveness and teaching coping strategies to create whole family progress.

Integrated Care Management

Skill building to assist the child with learning new skills to utilize in daily life. Provide care coordination services to assist with obtaining medical services, school advocacy for IEP/504 plans and linking to additional community resources.
