***Community Based services for CHILDREN  
AND FAMILIES throughout Butler,  
Clinton & Warren Counties***

**Early Childhood Home Based Services** – Specializing in children age 0-8 to assist with building attachment, connection and to support a child's emotional/social well-being. Weekly sessions focus on early childhood development and emphasize parent-child interactions.

**Intensive Home Based Services** – Short term (4-5 month) therapy focusing on the family system to stabilize the family unit and improve overall functioning. Three times per week sessions focus on mindfulness, distress tolerance, interpersonal effectiveness and teaching coping strategies to create whole family progress.

**Integrate Care Management** — skill building to assist the child with learning new skills to utilize in daily life. Provide care coordination services to assist with obtaining medical services, school advocacy for IEP/504 plans and linking to additional community resources.

**Home Based Therapy** – Individual therapy with family systems involvement. Good fit for those without transportation or when problems occur mainly in the home environment.

**School Based Therapy** – Individual therapy in the school setting. Assist with school advocacy and facilitating a positive relationship between the school and family.
